# WHO WE ARE - WHAT WE DO

---

A select, powerful and trusted group of professionals dedicated to providing superior service for unbankable assets in the modern financial world. We offer knowledge in various areas and focus on modern needs.

Secure storage, lending facilities and compliant holdings are just the beginning for assets outside the banking system. Our goal is to ensure that our clients remain liquid and safe - whether their holdings are inside or outside the banking system.

# SERVICES

## STORAGE

In our extensive network of high-security buildings, we offer you unique storage opportunities, exclusively in individual custody, in a customs and/or domestic storage facility.

In our cooperation partners individual custody system, we store your precious metals completely separately from the stocks of other customers. The customers' stock lists include the allocation of the relevant bar numbers or, in the case of coins, the seal numbers of the sealed storage boxes.

In the duty-free storage facility, the customer has the option to store his precious metal stocks (silver, platinum, and palladium) that are normally subject to VAT without actually incurring VAT.

Art and gemstones can likewise be stored in a bonded facility.

## TRADING & SOURCING

Backed by years of experience in the gold physical gold market we provide our clients with the best solution for trading, storage and planning of a prosperous precious metals portfolio.

Our network of precious metals traders, experts, lawyers, asset managers, financial and tax experts we provide a sound advisory service. We take pride in our work and expertise and offer these to our clients.

Through our partners on the African Continent we are also able to secure raw gold and provide opportunities in sourcing.

We offer LBMA, UAE GD and Dore

# SERVICES

## ART STORAGE

Art Storage is a delicate service.

We cooperate with companies that provide bonded warehouses, customs clearance, transit logistics and other necessity for international collections. All our partners are GRASP certified and provide the highest museum standard for storage and logistics.

We offer private rooms for storage, private viewings and private events. We work with several partners who collateralize fine Arts in Tailor-made solutions.

We also have a network of Art Lawyers who are at your disposal.

## INSURANCE & LOGISTICS

We insure Precious Metals, Fine Arts, collectibles and any other high value objects under storage.

Typical topics for precious metals include:

- Robbery
- Theft
- Embezzlement
- Terrorism/Sabotage

For Fine Arts the handling will be covered and transport “nail to nail” – For physical cash, water and fire damage is also included.

Logistically we provide a network of different companies depending on the geographical location. We transport via cargo, private or commercial air-fright. Locally we work with fully insured and certified companies.

# SERVICES

## PRIVATE PLACEMENTS & MINING

**Contract:** Client signs a 1-year gold contract of minimum of 1KG. The gold is sealed and remains in Dubai or in Switzerland. The gold can be either allocated or unallocated.

**Return:** 2kg additional gold per annum for 50kg in return or 4% yearly coupon paid biannually.

**Lending Facility:** For allocated gold, clients use lending facility with premium Swiss banks with an LTV of up to 70%. Gold will be held in Custody a private vault in Switzerland.

## MINING

We offer direct access to various mining operations on the African Continent. From simple investments and returns to partner agreements and long-term relationships. For more information let us know!

## REGULATED CRYPTO TRADING & NFTs

We work with regulated crypto platforms and licensed companies. Our main objective is to keep the client compliant and bankable in the future. We assist and facilitate asset relocation between Crypto Currencies like BTC or Ethereum into or out of physical Gold or Silver.

Additionally we assist with physical storage of crypto keys or cold wallets. We also focus on generative art (new media art, digital, crypto) and cooperate with the first physical gallery in the world, headquartered in Zürich, Switzerland, which specializes in art and technology (blockchain, crypto, AI).

# Highest security

We provide individual and segregated storage of precious metals. In contrast to many banks, which often offer only unallocated or allocated storage, especially for larger quantities.

With unallocated or allocated storage, clients have the only rights on any specific precious metal (gold, silver, etc.) of the commodity owned by the bank, or other storage facilities, but they do not legally own specific bullions, bars or coins.

In this case, the precious metal “owned” by the clients constitutes a part of the bank’s or storage facility’s own assets unless it is stored individually in a segregated form.

Gold, silver, platinum, palladium or other valuables stored with us are explicitly segregated from precious metals belonging to other clients and do not contribute to our own assets or the assets of anybody else other than our specific clients.

The advantages for our clients are clear:

**No counterparty risk & no insolvency risk exposure.**

# VARIATY OF OUR STORAGE SERVICES

Direct ownership, All-Done by one, Trustworthy partners – direct access to partner companies

EARN from your physical holdings: Take advantage of interesting private placements and earn % on your holdings

**For any other storage demands please contact us**

# OUR ADVANTAGES

## TRADING

-  Profit from competitive rates and trading premiums, continuous availability of bullion in all denominations
-  Professional trading companies in Switzerland, Liechtenstein, Dubai or Hong Kong with years of experience and track record
-  Geographically flexible: depending on our clients profile we chose the most befitting jurisdiction.

## STORAGE

-  All storage providers are fully vetted, completely compliant in their jurisdiction, and provide a third party insurance that guarantees the safety for all stored items
-  Pay storage costs in precious metals or earn up to 4% on you stored precious metal
-  Remotely accessible storage, easy transfer between storage locations and fully tradable during official hours

# ONBOARDING & EXECUTION PROCEDURE

## Process

Client contact and initial information exchange:  
Passport, Proof of Residence and KYC Documents

Jointly with the client we decide on the jurisdiction for storage and or trading. We specialise in cross border transaction. Ex: Purchase in Hong Kong and storage in Switzerland

All the storage, trading, loan or pledge contracts are verified and signed.

We provide tailored banking options for our clients to settle either their trading, storage or lending activities

We constantly monitor, optimize and develop our clients holdings, compliance profile or/and liquidity to the best of professional opinion.

# NETWORK FROM US FOR YOU

## Symbiosis Effect

Years of experience in special gold deals in and from various countries. We offer a quick Due Diligence on any mining, offtake or purchase offer from around the world. If applicable we offer to assist towards success

Great Network of different Lawyers and Advocates to provide sound legal advise in different jurisdictions concerning precious metals or any other topic

Long term experience in private sales, auctions, exhibitions and other functions surrounding the fine arts and collectible market

Different location – different laws and regulations. We cooperate with several storage locations world wide to offer alternatives and are willing to constantly expand our portfolio

# SUMMARY

We specialize on Precious Metals in physical form and provide a ecosystem for trading and storage outside the banking sector

We assist and manage to stay parallel with the compliant banking world so clients have the possibility to enter and exit the financial world, for short term liquidity or long term interest generating pledges

We manage and coordinate your stored assets for you. We provide support for transportation, accessibility, succession planning and insurance

We ensure the highest quality service and security offering multiple destinations and individual strong holds in various jurisdiction – Ensuring Safety & Insuring threats
